

## ANGLE SNOWPLOW

[TRACKLESSVEHICLES.COM](http://TRACKLESSVEHICLES.COM)

### BUILT TO TACKLE WINTER'S TOUGHEST CHALLENGES.

The Angle Plow is the most cost-efficient snow moving attachment you can mount on your Trackless MT. Nothing beats the economic performance and durability of a straight blade.

However, Trackless took the simplicity of a straight blade and made it even better; blade skins are made from 3/16" hot-rolled steel and reinforced with 3/8" thick steel ribs for optimum durability.
