

5-POSITION FOLDING V-PLOW

TRACKLESSVEHICLES.COM

TACKLE WHATEVER WINTER THROWS YOUR WAY.

The 5-Position Folding V-Plow allows you to build flexibility into your sidewalk maintenance program. This attachment offers the ability to choose between the simplicity of a straight blade, the speed of a V-Plow, the manoeuvrability of a scoop plow, or any configuration in between.

The left and right wings are controlled by individual hydraulic circuits via the joystick, allowing you to change your blade configuration as plowing conditions change. With the push of a button, both wings can be moved simultaneously.
