

## <mark>RIBBON</mark> SNOWBLOWER

TRACKLESSVEHICLES.COM

# BUILT TO TACKLE WINTER'S TOUGHEST CHALLENGES.

Designed for higher output, the Ribbon Snowblower outperforms all others in heavy snow conditions. In addition, it is highly aggressive when cutting into frozen snow.

The Ribbon Snowblower can accept either a sidewalk chute, truck-loading chute, or telescopic chute. Depending on the job at hand, an operator can quickly change from the sidewalk chute to the truck-loading chute to load snow from the street into an awaiting truck.

Available widths: 51", 60" and 75".
