

SNOW LION ICE-BREAKER SPECS

FEATURES	STANDARD	OPTIONAL
Two 47" (1200 mm) wide cutter assemblies, one behind the other.	✓	
Each cutter assembly consists of 4 pairs of cutter wheels mounted on spring-loaded, independent suspension.	✓	
Total of 16 cutter wheels, 10" (250 mm) in diameter with 15 heavy-duty knives per wheel.	✓	
Suspension provides the ability for the cutter wheels to follow contours.	✓	
Attachment is tractor-driven; no hydraulic or PTO shaft connections required.	✓	
Attaching frame shall have an adjustable leg for storage at the correct hookup height.	✓	
Removeable counterweights with handles allow for attachment weight to be lowered if required.	✓
